Further action to minimise travel across international borders

The government has announced further action for outbound and inbound passengers to minimise travel across international borders and reduce the risk of Covid-19 transmission.

- **For those wishing to travel out of the UK** - anyone who does not have a valid reason for travel will be directed to return home and may face a fine - the reason for travel will be checked. The list of travel exemptions will be urgently reviewed so that only the most important and exceptional reasons are included. The current list of jobs that qualify for travel exemptions is available [here](#) .
- **For those seeking to enter the UK** - those arriving from countries where the government have imposed international travel bans, and who cannot be refused entry, will be required to isolate in hotels for 10 days without exception. More details will be provided in due course.

New Guidance

Closed Businesses Lockdown Payment

The Closed Businesses Lockdown Payment (CBLP) supports businesses that have been required to close due to the national restrictions, beginning 5 January 2021. Eligible businesses may be entitled to a one-off cash grant of up to £9,000 from their local council. To find out if you are eligible, and how to apply, click [here](#)

Ask HMRC not to publish your Coronavirus Job Retention Scheme claim details

If as an employer, publishing your claim details could leave individuals at risk of violence or intimidation, you can request HMRC not to publish details about your Coronavirus Job Retention Scheme claim. You will need to show evidence that it would result in serious risk of violence or intimidation to:

- you or anyone living with you;
- an individual associated with your business or anyone living with them

For more information on what you will need to make a request, click [here](#).

Companies House pause voluntary and compulsory strike off processes for one month

[Voluntary and compulsory strike off processes](#) have been temporarily paused for one month from 21 January until 21 February 2021. This will provide companies with more time to update their records and help them avoid being struck off the register. It will also protect creditors and other interested parties who might have had difficulties receiving notices or registering an objection, or whose objections have not yet been processed. Find out more [here](#).
