

Transforming Foundation Industries – Success through innovation

Last few spaces available...

Are you looking to reduce costs and increase productivity?

Are you looking to reduce your energy or resource use to save money?

Are you looking to decarbonise your business?

Apply by **midday on 12th August 2022**

We have a few spaces still available in the project for Foundation Industry SMEs in sectors principally concerned with manufacturing core materials.

About the programme

Transforming Foundation Industries – Success through innovation will assist 18 Foundation Industry SMEs over 7 months to increase your ability to achieve cost savings, productivity gains, save energy and reduce emissions and access support and grants available to implement change.

Support available

Creating a bespoke innovation roadmap to prioritise strategic innovation activities

Guidance on innovation support, tools and funding that can be accessed by SMEs

Individual support and workshops learning from leading professionals and peers

Connections with sources of support and potential collaborators

Innovations could be improvements to renew, modernise, or introduce a new technology or process. Ideally these result in energy savings and reduced greenhouse gas emissions.

Eligibility

- In one of the six Foundation Industry sectors
- An SME
- Interested in innovation for your business
- Not actively receiving external innovation grants or support

To apply complete short application form by midday on 12th August 2022.
