

APPLICATION FORM

LOW-CARBON INNOVATION AWARD 2026

Company Details:

Company Name

Primary Contact Name

Job Title

Email Address

Title of Innovation:

Description of the Innovation:

Please describe the innovation, including:

- The process, product, or technology developed
- The challenge or industry issue it addresses
- How it differs from existing approaches

(Maximum 400 words)

Carbon Reduction Impact:

Explain how the innovation reduces carbon emissions.

Where possible, please include:

- Estimated or measured CO₂ reductions
- Energy savings
- Material efficiency improvements
- Any supporting data or calculations

(Maximum 400 words)

Implementation and Results:

Please describe:

- How the innovation has been implemented
- Current stage of development (pilot / operational / commercialised)
- Key outcomes or benefits observed so far

(Maximum 300 words)

Industry and Market Impact:

How could this innovation benefit the wider aluminium industry or downstream sectors?

(Maximum 250 words)

Supporting Evidence:

Please attach any relevant supporting materials such as:

- Technical data
- Case studies
- Photographs
- Process diagrams
- Independent verification (if available)

How to enter:

Entries should be submitted electronically to alfed@alfed.org.uk by **Friday 3rd July 2026**

All entrants will be notified early September as to the success of their application.

Good luck!
